## WHITENING STAND

ADVANCED TOOTH WHITENING SYSTEM

---

SMARTER DESIGN.

---

THE UPGRADED DESIGN IS EXTREMELY STABLE AND EASY TO MANOEUVRE, MAKING IT A GREAT INVESTMENT FOR YOUR CLINIC.

---

FOR USE WITH RADII PLUS AND RADII XPERT CURING LIGHTS.

# KEY FEATURES

## SIMPLE DESIGN

Our new Pola whitening stand comes in a simple and slimline design that supports both Radii Plus and Radii Xpert curing lights which are stable and easy to handle in office.

## WIDE RANGE OF MOVEMENTS AND ADJUSTMENTS

The stand comes with several rotatable parts which allow the lamp to be adjusted to whatever position is required.

## VERSATILE

The stand can be positioned beside or behind the patient, depending on the practice set up.

## LIGHTWEIGHT, CORDLESS AND COMPACT

Moving and positioning the stand has never been this easy with our lightweight, cordless and easy to clean design. The stand can be safely stored away in when not in use.

## STABILITY OF THE SYSTEM

The stand is built with breaks on two wheels to ensure the base is in place while being used for treatments

## EQUIPPED WITH WHEELS

The stand is equipped with wheels allowing complete freedom of movement and control from one room to another.

# VERSATILE STAND FOR USE WITH LEADING PRODUCTS MADE BY SDI

## RADII XPERT CURING LIGHT

Using the experience gained by producing over 100,000 LED curing light units on the market today, SDI's latest addition, the Radii Xpert is a showcase of polymerisation technology. This device has an ergonomically well-balanced grip, with a 360° rotatable head and offers the clinician an optimal cure every time. This is possible due to collimated beam and target assist precision curing technology. The Radii Xpert will cure all commercially available composites without the need for a polywave light, plus a consistent light intensity and beam profile ensure complete curing of deep restorations.

## RADII PLUS CURING LIGHT

Over the years, clinicians around the world have enjoyed the workhorse of SDI's curing light line up, the Radii Plus. As with the Radii Xpert, this versatile device, has the ability to transform from a curing light into a whitening lamp or diagnostic white light. With simple to replace components, and a battery that when fully charged provides up to 1200 cures, this unit provides optimal piece of mind for dental clinics.

## POLA OFFICE+ IN OFFICE TOOTH WHITENING SYSTEM

Millions of smiles around the world have been whitened by the Pola Office+ advanced tooth whitening system. White smiles can be achieved in less than 30 minutes using this 37% hydrogen peroxide gel. Just a thin layer is needed, and the automix syringe allows for simple delivery of the gel. With a neutral pH and inbuilt potassium nitrate, Pola Office+ ensures maximum comfort for your patient.
