

8008 barrier film

Barrier film is essential for preventing cross-contamination in dental practices by covering surfaces that are difficult to clean and disinfect. Its easy application and removal make it a convenient, cost effective solution for maintaining a sterile environment between patients.

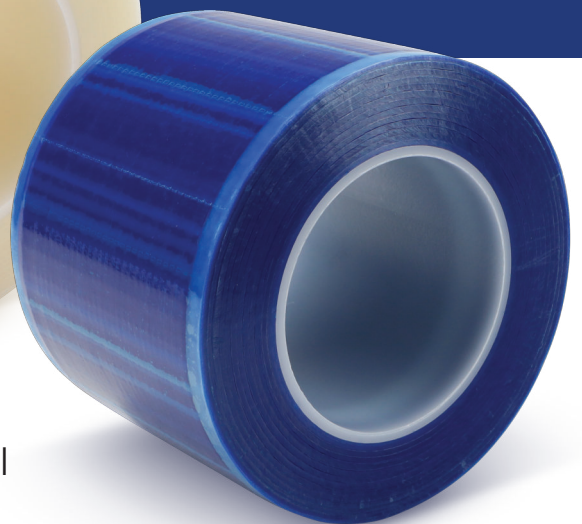

8008C clear

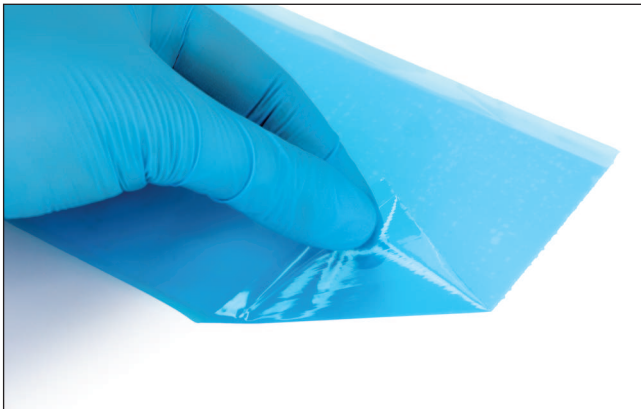

1200 sheets per roll
10 x 15 cm sheets

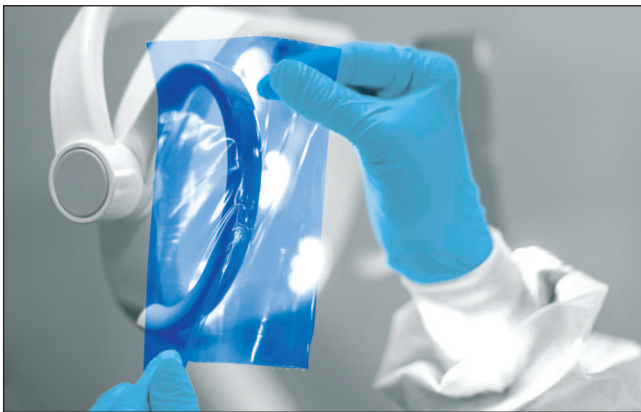

8008B blue

1200 sheets per roll
10 x 15 cm sheets

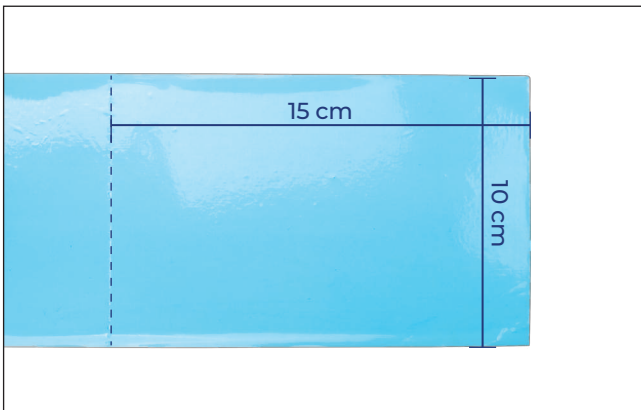

5 mm no adhesive edge allows for easy placement and ensures hassle free, quick removal without leaving a sticky residue.

Barrier film is universal and can be applied to a wide range of surfaces such as chairs, lights handles and other dental equipment providing comprehensive protection.

15 cm x 10 cm perforated sheets for easy, precise tearing to make application as simple as possible.

Conveniently dispensed directly from the box, enhancing efficiency for dental staff.
