BIOLine

More and more practices are considering sustainable products to be an important environmental contribution. With our new BIOLine series, we now offer dental sustainable alternatives. All BIOLine products are compostable, biodegradable or made of recycled material.

Happy Morning® Bamboo

Single-use toothbrush made of bamboo

- Handle made from 100 % biodegradable, sustainably grown bamboo
- Bamboo acts antibacterial and germ-reducing
- Bristles are impregnated with xylitol toothpaste
- Short head design (2.5 cm)
- Individually, hygienically packed in biodegradable film

Article(s)	Content(s)	REF
Happy Morning Bamboo	40 pcs.	605 426

Bio Dento-Box I:
Height 3 cm

Bio Dento-Box II:
Height 4 cm

Bio Dento-Box®

Solid transport and storage box

- Made of bio-plastic (Terralene 75 %, 25 % Mineral Material)
- For prosthesis, orthodontic works, etc.
- Impact-proof, safe snap lock and small ventilation holes
- Biodegradable

Article(s)	Content(s)	REF
Bio Dento-Box I	12 pcs.	640 020
Bio Dento-Box II	10 pcs.	640 030

W x H x D: 28 x 18 x 1.5 cm

Bio Trays

Single-use trays for dental instruments

- PLA: Polymer of plant origin (derived from corn starch)
- Highly stable product
- Transparent coloring
- Compostable

Article(s)	Content(s)	REF
Bio Trays	100 pcs.	640 010

Size
7 x 8 cm

Bio Mix Mixing Pad

Single-use mixing pads

- Made of bioplastics (made of 75 % Terralene and 25 % mineral charge)
- For impression materials, cements, composites etc.
- Made of paper in combination with Biocartene (bio-based plastic)
- Consisting of 100 sheets, each 0.10 mm thick
- Non-slip base with special plastic-free coating
- Biodegradable

Article(s)	Content(s)	REF
Bio Mix Mixing Pad	6 x 100 sheets	640 011

Bio Apply-Tips®

Fine application tips

- Made partially from wheat straw
- For precise application of liquids and pastes
- Bendable ends for areas that are difficult to access
- Economical use of expensive materials (such as bonding, medication, etc.)
- Acid resistant to bonds and other materials
- Biodegradable

Bio Dapp

Single-use Dappen

- Made of bioplastic (Terralene 75 %, 25 % Mineral Material)
- To mix and prepare dental materials
- Notch to fix on the tray
- Biodegradable

Article(s)	Content(s)	REF
Bio Dapp	200 pcs.	640 015

2 – 3 ml

Bio Sensor Sleeves

Hygienic protective sleeves for x-ray sensors

- Very soft and tactile material
- Biodegradable

Article(s)	Content(s)	REF
Bio Sensor (small)	500 pcs.	640 070
Bio Sensor (medium)	500 pcs.	640 071

Size:
small 42 x 200 mm
medium 45 x 200 mm

Size: 100 x 280 mm

Bio Cup

Single-use mouth rinse cups

- Made from FSC certified paper
- Leak proof due to PLA coating
- Dispenses easily from cup dispenser due to their rolled lip
- Capacity: 180 ml (6 Oz)
- Compostable

Article(s)	Content(s)	REF
Bio Cup	1,000 pcs.	640 000

Cup Dispenser

Adjustable cup dispenser made of ABS plastic

- Self-adhesive
- Capacity about 50 cups
- Adjustable to 150 ml – 200 ml cups

Article(s)	Content(s)	REF
Cup Dispenser	1 pc.	640 007

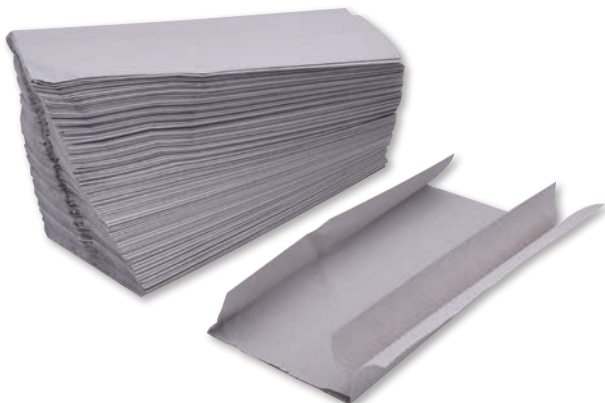

Bio Bowl

Kidney trays made from recycled paper

- For storage after treatment
- Compostable

Article(s)	Content(s)	REF
Bio Bowl	50 pcs.	640 040

Bio Towel

Recycled paper napkins

- Natural gray, without dyes
- 1-ply, C-fold
- 40 gr/m²
- Compostable
- Folded: 22.6 x 9.1 cm / Unfolded: 33.5 x 22.6 cm

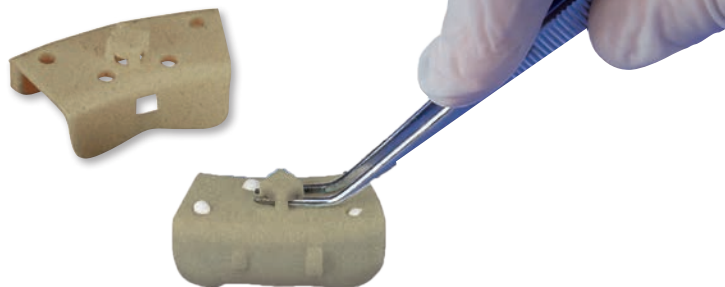

Article(s)	Content(s)	REF
Bio Towel	3,000 pcs.	640 013

Bio Miratray®-Mini

For single impressions of crowns and small bridges

- Easy to slide onto reamed forceps
- Ideal for patients with gag reflex
- Saves impression material

Article(s)	Content(s)	REF
Bio Miratray-Mini	50 pcs.	641 102

Bio Miratray® Partiiell

Partial bioplastic impression trays in three different shape types

- Ideal for patients with gag reflex
- Save impression material

Article(s)	Content(s)	REF

Pelotte Bio

Suction cannula with valve

- Double tips: S-shape + S-shape
- Ventilated to prevent blockage
- No phthalates, no latex
- Made from environmentally friendly Green PE
- Length: 145 mm, ø 11 mm
- Optional adapter 11 to 16 mm

Article(s)	Content(s)	REF
Pelotte Bio	100 pcs.	640 090

Miratray® Implant

Implant impression tray with patented foil technique

- Perfect, open implant impression
- Impression in just one session without additional laboratory costs
- Controlled and safe impression taking with the impression posts clearly visible
- Clean working environment due to the precise sealing of the foil to the impression posts
- No overflowing impression material
- Customizable, user-friendly, cost-effective and hassle free
- Suitable for all implant impression materials and implant systems

"I use Miratray Implant in my practice because it is no longer necessary to have an individual tray made in the laboratory = time saving (appointment) and cost saving for the patient".
Mrs. Petra Weidenmüller, Germany

Often requires laborious adaptation

Perfect fit

Miratray® Spray

Adhesive spray for alginates

- An ideal spray adhesive for all dental impression trays
- Impressions adhere much better to the metal or plastic impression tray
- For use with alginates only.

Article(s)	Content(s)	REF
Miratray Spray	200 ml	554 210

Autoclavable

Algilock®

Extremely durable impression tray

- "Retention rims" hold the impression material without adhesives
- For dentulous jaws
- High-quality, corrosion-resistant stainless steel
- Autoclavable
- On request, Algilock is available for maxilla and mandible as:
 - Algilock partial (perforated/non-perforated)
 - Algilock pedo (orthodontology)
 - Algilock edentulous (perforated)

IMPRESSION

Algiloid®

Highly precise hydro impression material

- Favorable alternative to silicone impressions
- The tray remains in the mouth for only approx. 3 min.
- Easy and quick handling
- Combines the advantages of agar hydrocolloid with those of alginate

Highly precise, cost effective and time-saving impressions with the Algiloid System

The Algiloid system consists of algiloid hydro material as "light body" and customary alginate as "heavy body".

Article(s)	REF
Box with 48 cylinder ampoules	101 401
Cylinder ampoule syringe III, incl. 2 attachments	101 405

Algilock® Cleaner Plus

Alginate remover

- Cleaning in dipping bath without mechanical impact, no ultrasound, no scratching
- Decomposes the organic structure of the impression material, no aggressive or caustic effect, corrosion resistant
- Impression trays do not tarnish even after multiple cleanings
- Bio-degradable and pH-neutral, phosphate-free, pleasant smell
- For approx. 500 trays

Easily removes plaster and alginates from impression trays, instruments and spatulas. No laborious and time-consuming cleaning, simply add 50 g to 1 l of warm water and leave for approx. 15 – 30 minutes. May also be used in an ultrasonic unit. Not suitable for aluminum trays.

Regular 10 cm, blue / flat	100 pcs.	605 461

APPLICATION

Reso-Pac®

Odontological wound protection dressing

- Very good adhesive properties
- For direct application to wounds and sutures
- Keeps bacteria out and promotes healing
- Ideal wound and suture protection in implantology, periodontology, post-extractions, orthodontics, and prosthetics
- Used to cover applied medications
- Remains soft – Tasteless – Odorless

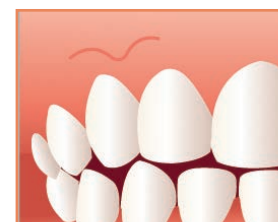

Article(s)	Content(s)	REF
Reso-Pac	25 g	155 011
Reso-Pac value pack	5 x 25 g	155 010

Before

After

Myzotect®-Tincture

Myrrh-Benzoin-Aloe-Tincture

- After periodontal treatments and dental procedures
- Myrrh (tissue-strengthening and nurturing) helps with the after-effects of tooth and gum treatments.
- Benzoin and aloe help nourish and strengthen the oral mucosa
- Use without antibiotics or corticosteroids
- Does not sting after application and adheres to the mucosa for a long time due to its syrupy consistency
- Lasts for over 100 applications

Article(s)	Content(s)	REF
Myzotect-Tincture (brush included)	5 ml	155 008
Myzotect-Tincture	50 ml	155 005

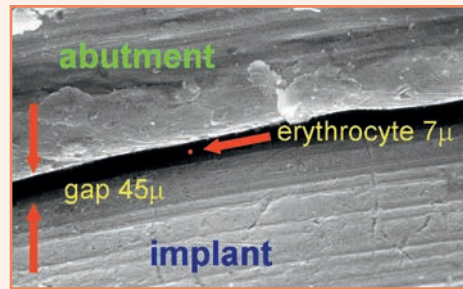

TIP: For home use by the patient

Peri-implantitis

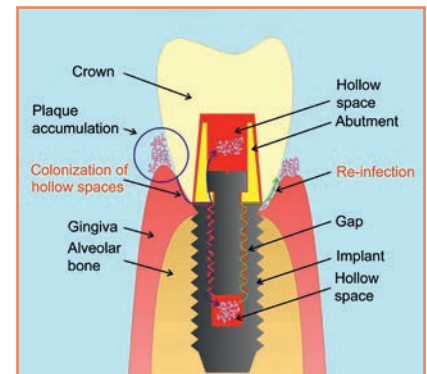

Gap between abutment and implant

Application of the GapSeal sealant

Clinically
proven for
over
25 years

Twist mechanism →

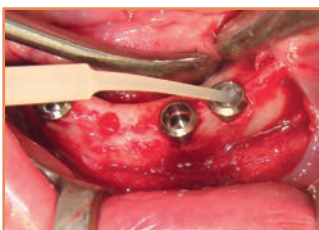

Gaps and hollow spaces with microbial colonization in a compound implant

GapSeal®

The key to preventing peri-implantitis

- Germ-tight in gaps and cavities of multi-component implants
- Long-lasting hermetic protection
- Prevents the negative effects of microleakage
- Tissue friendly, does not harden
- Highly viscous, transparent material (silicone matrix)
- One tip for approximately 3 implants

Article(s)	REF
GapSeal Set (applicator with 10 tips)	152 041
GapSeal Refill Pack (10 tips à 0.06 ml)	152 040
Applicator separately	152 042

GapSeal sealing immediately after insertion

GapSeal superstructure sealing in implant-supported bar abutments

Implant opened? Does it stink?

Bad smell indicates bacterial infiltration

> GapSeal protects against bacteria, viruses and fungi

SIMPLY GOOD – TWICE AS EFFECTIVE

Active oxygen booster for periodontitis and peri-implantitis

 Rapid pocket depth reduction

 Destroys harmful anaerobic bacteria

 Accelerated wound healing

 No antibiotics, no CHX

 Excellent clinical results

 Reduces the need for periodontal surgery

 Delegable

 For use in conjunction with anti-infective therapy (AIT) and supportive periodontal therapy (SPT)

Application

Patient continues treatment at home

Patientensituation nach erfolgter Therapie mittels Metronidazol, CHX Chips, aPDT und anderen Maßnahmen nach dem 3. Recall

Application of the OXYSAFE gel in situ

Patient situation 3 weeks after the start of oxygen treatment with OXYSAFE Professional

OXYSAFE® Professional

Flat (20 mm long)	50 pcs.	605 792

Rotoprox with stainless steel shaft

Rotoprox, for CA ø 2.0 mm x-fine/straight 27 mm long	10 pcs.	605 719
Rotoprox, for CA ø 2.2 – 2.5 mm fine/conical 27 mm long	10 pcs.	605 721

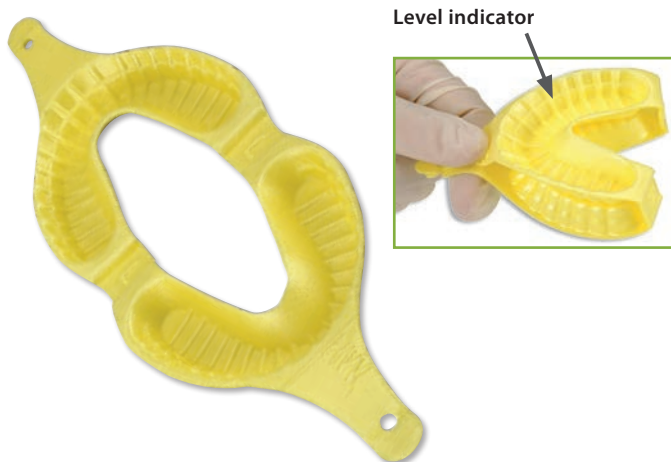

Miradont®-Gel

Micronutrient gel for intensive oral care

- Accompanying therapy in aphthae and oral lesions
- Regenerating and revitalizing
- For irritated and stressed oral mucosa
- No added alcohol, saccharin, menthol, and preservatives
- Menthol, Magnesium, Sage extract, Clove oil, Zinc, Vitamin E, Panthenol, White tea extract

Article(s)	Content(s)	REF
Miradont-Gel	15 ml	155 000

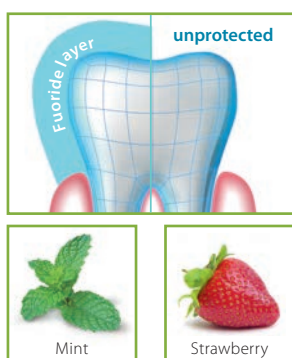

Mirafluor®-Tray

Application tray for fluoride gel

- Made of light, flexible material
- Double tray for simultaneous treatment of maxilla and mandible

Article(s)	Content(s)	REF
Mirafluor-Tray, small	50 pcs.	605 620
Mirafluor-Tray, medium	50 pcs.	605 621
Mirafluor-Tray, large	50 pcs.	605 622

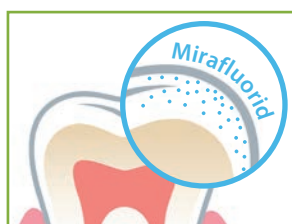

mirafluor®-gel

Fluoride gel

- For caries prophylaxis with sodium fluoride
- For remineralisation of the tooth enamel
- With 1.23 % fluoride (NaF)

Article(s)	Content(s)	REF
mirafluor-gel, mint	250 ml	605 800
mirafluor-gel, strawberry	250 ml	605 801

Mirafluorid®

Fluoride varnish on emulsion basis with 0.15 % fluoride

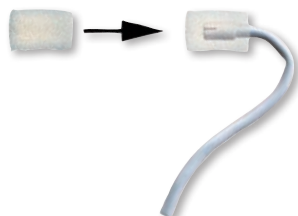

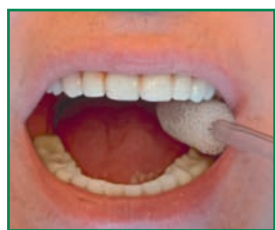

- For precise application, can also be applied in a humid environment

Article(s)	Content(s)	REF
Mirafluorid	5 ml	605 810

We recommend our Mirabrush brushes for application (see page 16).

Further information can be found from page 62

Comfi-Tips

Aspiration pads for saliva ejectors

- Avoid suction to the oral mucosa
- Prevent pain from cold drafts on sensitive tooth necks
- Reduce the typical suction noise
- Increase patient comfort
- Made of foam

Article(s)	Content(s)	REF
Comfi-Tips	100 pcs.	605 286

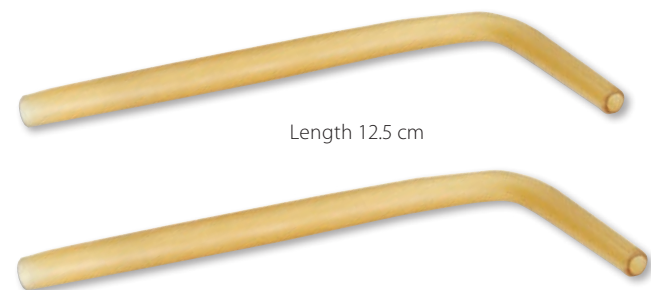

Length 20 cm,
ø 2 mm

Chirurgo-Suc I

Sterile single-use surgical aspiration cannulas

- Extremely long (20 cm) for unobstructed work area
- Fits all hoses with adapter (REF 254 130 and 254 132 – s. S. 39)
- Individually sterile sealed, clear plastic

Article(s)	Content(s)	REF
Chirurgo-Suc I (without adapter)	10 pcs.	254 000

Length 12.5 cm

outside ø 6.6 mm
inside ø 5.0 mm

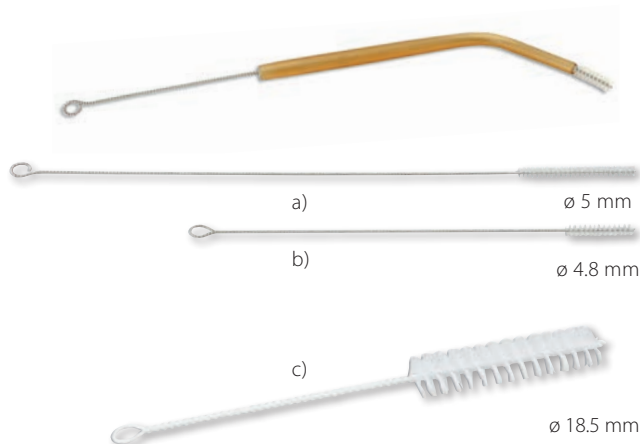

outside ø 5.0 mm
inside ø 3.7 mm

Steri-Suc-Tube

Aspiration cannula

- Made of high-quality, transparent, honey-colored plastic
- Safe in contact with activated electrodes (see page 55) or rotating instruments
- Fits to saliva ejector (6 mm) without adapter
- Ultra-light, approx. 3 g weight
- Includes one Chiru-Cleaner brush (No. 19, REF 605 215)
- Autoclavable

Article(s)	Content(s)	REF
Steri-Suc-Tube	10 pcs.	254 060

a) ø 5 mm

b) ø 4.8 mm

c) ø 18.5 mm

Chiru-Cleaner® / Mirasuc® Brush

Cleaning brushes for surgical canulas

Article(s)	Content(s)	REF
a) Chiru-Cleaner 19, 19 cm long	12 pcs.	605 215
b) Chiru-Cleaner 16, 16 cm long	6 pcs.	605 217

Cleaning brush for aspiration cannulas

- Bendable, ideal for cleaning the inside of cannulas
- Fits all 11 mm and 16 mm ø aspiration cannulas, 18.5 cm length

Article(s)	Content(s)	REF
c) Mirasuc Brush, 18.5 cm long	6 pcs.	605 216

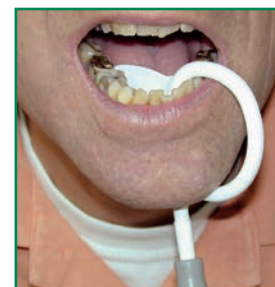

ASPIRATION | RUBBER DAM

Swe-Flex

Single-use saliva ejector with tongue holder

- For draining the oral cavity
- Holds back the tongue
- Flexibly adapts to the patient
- Optimal suction effect
- To be inserted between the tongue and the dental arch

Article(s)	Content(s)	REF
Swe-Flex	100 pcs.	254 150

Pelotte-Aspirator / Pelotte Plus

Single-use plastic aspiration cannulas

- Round head cannula
- ø 11 mm, length 10 cm

Article(s)	Content(s)	REF
Pelotte-Aspirator, white, incl. 1 adapter (from ø 11 to 16 mm)	50 pcs.	254 022

Endo N2®

Root canal cement based on zinc oxide-eugenol

- Economical and fast alternative for over 50 years
- Can be used alone or as a sealer connection with Gutta Percha points
- Easily rotated into the canal
- Adheres well to canal walls
- Definite, non-absorbable filling with a chalk-like hardness after curing
- Antimicrobial effect gradually diminishes as it sets
- Powder and liquid for mixing

Article(s)	Content(s)	REF
Set	10 g powder, 6 g liquid	152 027

Speed Labolight®

Universal light polymerization device

- For a variety of light-curing dental resins
- Nanometer range 320 – 550 nm
- Optimized light mix for homogeneous and reliable curing
- Circular arrangement of eight rod-shaped lights around a turntable and one halogen lamp
- Interval turntable for uniform light exposure and curing
- Adjustable from one second to 99 minutes, overheating protection, polymerization temperature in the chamber does not exceed 40 °C
- Long-life, easily replaceable lamps (approx. 1,000 hours)

Technical data	Size and weight
Supply voltage: 230 V, 50 Hz	(W x H x D): 25 x 29 x 24 cm
Power consumption: 225 W	Weight: 7 kg
Fuse: 1 x 2.5 A	Turntable: ø 14 cm
Lamps:	8 x 9 W / 52 T1 (white light)
	4 x 9 W / PLS-10 T8 (UV-A)
	1 x 150 W (halogen)

* The positive effect is ensued if the chewing gum is consumed every time your mouth feels dry.

** Chewing gum, which is sweetened 100 % with xylitol, has been proven to reduce dental plaque. Heavy plaque is a risk factor for the development of tooth decay in children. The positive effect is ensued if 2 – 3 g of chewing gum – 100 % sweetened with xylitol – are consumed at least 3 times a day after meals.

*** The positive effect occurs when chewing the xylitol chewing gum for at least 20 minutes after eating or drinking. (Consuming food that contains xylitol instead of sugar helps maintain tooth mineralization.)

Notes: Chewing gum with sweetener. Excessive consumption may have laxative effects! Please pay attention to a balanced and varied diet and a healthy lifestyle. Recommended daily allowance: Adults 1 – 10 pieces. Not for children under three years (risk of suffocation if swallowed). Life-threatening for pets.

Xylipop Nutritional Information

Ingredients Xylipop Strawberry: sweetener: xylitol; stabilizer: isomalt; thickening agent: gum arabic; aroma; strawberry extract; acidity regulator: calcium lactate; acidifying agent: citric acid; separating agent: magnesium stearate; coloring agent: beetroot red. **Ingredients Xylipop Blueberry:** sweetener: xylitol; stabilizer: isomalt; thickening agent: gum arabic; aroma; malic acid; acidity regulator: calcium lactate; acidifying agent: citric acid; separating agent: magnesium stearate; coloring agent: blueberry powder. **Ingredients Xylipop Banana:** sweetener: xylitol; stabilizer: isomalt; thickening agent: gum arabic; aroma; malic acid; acidity regulator: calcium lactate; banana powder, acidifying agent: citric acid; separating agent: magnesium stearate; coloring agent: beta-carotene.

Mirapont Silifit	250 g	203 015

Occlu® Spray Plus

High-quality, green occlusion spray

- To mark contact points by spraying directly onto the occlusal surfaces occlusal surfaces or the inside of crowns
- Micro-powder layer for highest accuracy
- Contains food coloring
- Powder layer can be easily removed with water, economical consumption

Article(s)	Content(s)	REF
Aerosol spray, green	75 ml	554 205
Aerosol spray, green	50 ml	554 211

LABORATORY

Dipol®

Proven wetting agent for all phosphate and plaster based investment materials

- For precise, clean casting
- Degreases wax, relaxes wax surface
- Creates a molecular bridge between the hydrophobic wax and the investment, allowing it to flow over the wax object without bubbles. This results in clean, smooth casting surfaces.
- Does not contain any setting retardants or otherwise interfering chemicals that can lead to rough surfaces
- Also excellent as a wetting agent for silicone, polyether, etc. impressions for easy casting with plaster for model making
- Formaldehyde-free, alcohol-free
- Propellant-free pump spray with micro-fine mist

Article(s)	Content(s)	REF
Set with 1 l bottle + 1 pump bottle	(empty)	605 044
Pump bottle, filled	100 ml	605 043
Pump bottle	(empty) for 100 ml	605 045

Mirapor®

Insulates plaster cast

- No film formation, as it is not silicone-bound
- Precise, very easy separation
- Plaster contours detach without aid
- No discoloration of models
- Seals the plaster pores against dirt and water
- Plaster surfaces can be polished to a high gloss with a brush or cloth
- Propellant-free, formaldehyde-free

Article(s)	Content(s)	REF
Set with 1 l bottle + 1 pump bottle	(empty)	605 113

Mirapont®

A pale, highly precise special acrylat for stumps and models

- Very thin and low viscosity material
- Both liquids (components A and B, ratio 1:1) are mixed within 30 sec.
- Can be poured into silicone, alginate, reversible hydrocolloid and thermoplastic
- Can be sawed, milled and polished after 90 min.

Article(s)	REF
Mirapont 500 g Includes: 250 g liquid A, 250 g liquid B, 2 dosage bottles A and B, 200 ml Agent Plus, 50 g Silifit, 5 measuring cups, 1 shaker with pouring spout, 2 large mixing spatulas, 5 small mixing spatulas, disposable gloves	203 010
Mirapont 1,000 g Includes: 2 x 250 g liquid A, 2 x 250 g liquid B, 2 dosage bottles A and B, 200 ml agent plus, 50 g silifit, 5 measuring cups, 1 shaker with pouring spout, 2 large mixing spatulas, 5 small mixing spatulas, disposable gloves	203 011

Ergotherapeutic Seat Wellbeing for your back

» Preserves the natural pelvic and spinal position when sitting

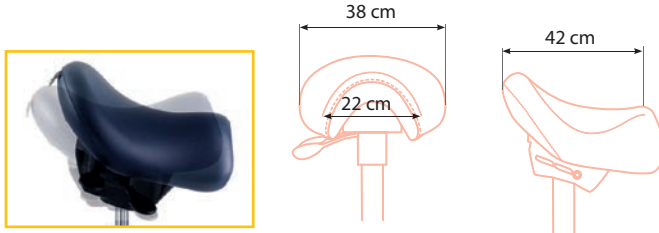

» Significantly reduces the pressure on the intervertebral discs

» **TILT ANGLE** and height of the seat adjustable

Standard

- Standard saddle shape
- Particularly popular among people with hips of average width
- Ensures a healthy and comfortable posture
- For the elimination and prevention of back pain

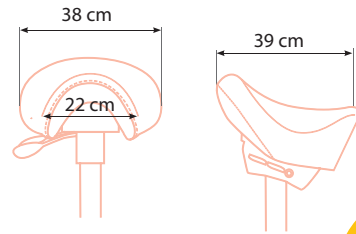

Seat height ideally matched to the appropriate body size:

Height of gaslifts	S	M	L
Body size	up to 1.60 m	up to 1.90 m	over 1.90 m

(Please consider when placing an order.)

Cutaway

- Comfortable for people with narrow hips

With
NARROW
curvature!

POSTURE matters:

THE PROBLEM

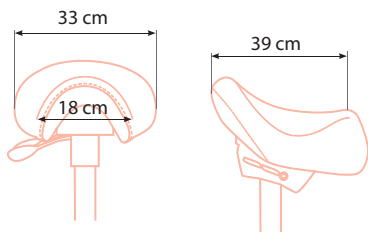

Conventional seats force the spine into an unhealthy "C" shape. This unnatural posture increases the pressure on your spinal discs to an alarming extent, which can result in many problems, mainly in combination with pain in the back, neck, arms, hands or shoulders.

THE SOLUTION

Thanks to its patented back curvature, the Bambach Saddle Seat is the only seat that ideally supports your pelvis, allowing your spine to keep its natural "S" shape. While this avoids a poor sitting posture, you benefit from a natural, healthy posture.

Small

- Particularly popular with people with a small frame

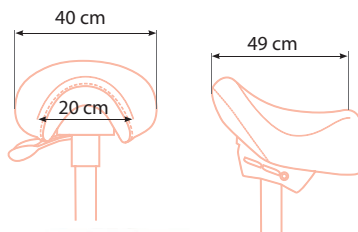

SMALL
saddle shape!

Large

- Particularly popular with people of a larger build

LARGE
saddle shape!
